Adaptability

Time Management

# Harsh Pandey

## Tech and Marketing Enthusiast Seeking to Make an Impact in the Tech and Marketing Industries

Tech-savvy App Developer skilled in Flutter, Firebase, and web development. Expertise in managing social media for leading Tech companies. Committed to delivering innovative solutions and optimizing user experiences. Adaptable, results-driven, and passionate about staying at the forefront of technology.

## Projects

### Waste free Chef

Wfc: Utilized Flutter, Firebase, and Maps to connect users with surplus food from local establishments, reducing food waste and promoting sustainability. Overcame challenges in data integration, location-based matching, and ensuring a seamless user experience. Implemented robust security measures to safeguard user privacy and foster community engagement through gamification elements.[\(know more\)](#)

### ChatApp

Designed and developed a dynamic ChatApp using Flutter and Firebase. Enabling seamless real-time messaging, image, and video sharing for users. Prioritized exceptional user experience with an intuitive interface and smooth functionality. Demonstrated strong mobile app development skills and expertise in real-time data synchronization. [\(know more\)](#).

### Space-odysee

Spaceodysee: Created a cutting-edge mobile application using Flutter, Firebase, and Yahoo API to inspire sustainable investment in space exploration and future advancements. This innovative app secured our place as finalists in the prestigious CSI space-themed hackathon 2023, which revolved around the theme of "Sustainable investment in space for future developments" Leveraging Yahoo API, the app provided users with real-time stock details from diverse space-related providers, empowering them to make well-informed investment choices and contribute to the future of space exploration. [\(know more\)](#)

### Yugma

Yugma - Social Cause Website: Developed using React.js and MongoDB, Yugma is a powerful platform where users can register complaints about specific locations. The website utilizes heatmaps to highlight these locations, bringing attention to social issues and promoting community engagement. Contributed to the creation of Yugma, leveraging technology to drive positive change and address pressing societal concerns.[\(know more\)](#)
